PROFESSIONAL PROFILE

Software Engineer with a First Class Honours BSc (Hons) in Computer Science and experience developing, deploying and maintaining enterprise web applications. Skilled in React, TypeScript, Node.js, Express.js, REST APIs and relational databases, with hands-on experience in automated testing, CI/CD, containerized deployments and production support. Additional project experience integrating AI services using Python, FastAPI and local LLM technologies.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, PHP, SQL, Java fundamentals (academic)
Frontend	React.js, HTML, CSS, responsive web interfaces
Backend & APIs	Node.js, Express.js, FastAPI, RESTful APIs
Databases	MySQL, SQLite, Redis, MongoDB
Testing & CI/CD	PHPUnit, PHPStan, unit/security tests, MySQL integration tests, GitHub Actions
Infrastructure & AI	Docker, Podman, Linux, OpenShift, Nginx, RAG, Qdrant, llama.cpp

PROFESSIONAL EXPERIENCE

Software Engineer – Contract

Apr 2026 – Present

Department of Agrarian Development | Colombo, Sri Lanka

- Develop and maintain enterprise applications and backend services, supporting testing, containerized production releases and post-deployment issues.
- Independently developed and maintain DAD TV using React/TypeScript, Node.js/Express, SQLite and FFmpeg, including adaptive video delivery, separated streaming workers and bounded fault recovery.
- Migrated the Mail Management frontend to native OpenShift using digest-pinned container images, private persistent storage and validated promotion and rollback procedures.

Software Engineer Intern

Oct 2025 – Apr 2026

Department of Agrarian Development | Colombo, Sri Lanka

- Developed FarmerNet Version 1 modules for farmer registration, land and cultivation management, damage reporting, harvesting records and officer administration.
- Supported application/database testing and deployments with PHP, MySQL, Linux, OpenShift, Docker, Podman, Nginx and Git.

SELECTED PROJECTS

Mail Management System – Enterprise Workflows

Nov 2025 – Present

Department of Agrarian Development | PHP · MySQL · REST APIs · OpenShift

- Implemented document routing, sequential/parallel approvals, assignments, role/permission checks, and auditable workflow states for departmental correspondence.
- Developed reusable application services, policies, repositories, and REST endpoints with transactional workflow operations and authorized private document downloads.
- Added PHPStan, PHPUnit and MySQL integration/security checks; supported CI image builds, persistent storage and native OpenShift deployment.

DAD TV – Full-Stack Broadcasting Platform

May 2026 – Present

Department of Agrarian Development | React · TypeScript · Node.js · Express · SQLite

- Designed a web interface and backend for media libraries, playlists, live channel operations, stream status and administrative controls.
- Implemented FFmpeg-based HLS streaming with independent output workers, health checks and recovery safeguards for interrupted publishing.

AI Stack VM – Private LLM & RAG Platform

Jun – Jul 2026

Personal project | Python · FastAPI · llama.cpp · Qdrant · React · TypeScript

- Built a self-hosted platform for local LLM inference and retrieval-augmented generation over private documents and source-code repositories.
- Implemented indexing, embeddings, vector retrieval, OpenAI-compatible services, authentication, rate limiting and container management tools.

EDUCATION

BSc (Hons) Computer Science – First Class Honours

Mar 2023 – Jul 2026

University of Plymouth, UK | Delivered at NSBM Green University, Sri Lanka

ACHIEVEMENTS & CERTIFICATIONS

Career Essentials in GitHub Professional Certificate | LinkedIn Learning | Aug 2025

IEEEXtreme Programming Competition 19 | Participant | Oct 2025

Industry Preparation Training | NSBM Green University | Aug 2025
